

BY DESIGN

The official company newsletter of Fronhofer Design

BY DESIGN

We are thrilled to announce the first edition of our quarterly newsletter, **By Design**. There are incredible innovations and collaborations happening at Fronhofer Design each and every day and we look forward to being able to share those with you. In future editions you can expect to see customer highlights, industry trends, and company happenings. We hope you enjoy catching up with us, cheers!

FRONHOFER DESIGN- NEW OFFICE

We are excited to announce that Fronhofer Design is moving its offices to the Grey Ghost building in downtown Glens Falls, NY. This new location will be a creative makerspace for our team of designers to create your custom equipment. Our manufacturing is staying put in Cossayuna, NY where it has been for nearly 40 years.

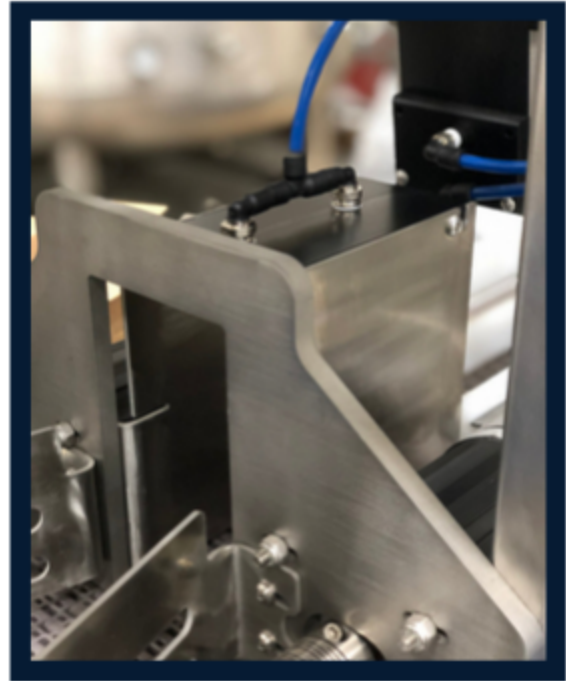

New address: 76 Lawrence Street, Glens Falls, NY 12801

SHOP SIGHT GLASS

Dissolved Oxygen levels are a key factor in ensuring that your beer can withstand the test of shelf life time.

Standard on our **801SW Canning Line** is a **C02 purging hood** that blankets your foam cap with an additional layer of C02, preserving the flavor and mouth feel you intended.

QC can rest easy and know that each can is as oxygen free as possible and well protected throughout the entire packaging process.

SIGN UP TO ATTEND OUR FREE PUMP REBUILD AND MAINTENANCE WORKSHOP
Hosted by Fronhofer Design and sponsored by Dixon

Learn tips and tools for properly maintaining and repairing your brewery pumps.
 November 14, 2019 6:00-7:30 p.m.
